## A Message from The Dean

In the name of Allah, the Most Gracious, the Most Merciful, and prayers and peace be upon the most honorable of the prophets and messengers,

It is obvious that important successes in institutions and projects are always based on strategic plans with clear and specific vision, mission and objectives. Based on this idea and on the belief of the leaders of the College of Education in Al-Kharj in the importance of strategic planning, the college leadership team, including the dean, vice deans and heads of departments, reviewed the strategic plan of the college for the purpose of developing and updating it. For this purpose, College strategic planning team was appointed, which is a six-member team of three males and three females. The team reviewed the old plan, and identified priority objectives for follow-up and implementation, and objectives that need to be modified. The plan developing team worked in light of what was stated in university's strategic plan, Afaq plan for education, the strategic planning guide prepared by the Deanship of Development and Quality, the strategic objectives of the college, and the proposals of the heads of departments and administrative units of the college. As we formulate the chapters of this plan, we won't fail to thank His Excellency the Rector of the University for his constant follow-up and eagerness to promote quality practices at the University in general and the College of Education in particular. We also thank the Deanship of Development and Quality for its wise guidance that helped in building this plan. We thank college strategic planning team which had sleepless nights to produce this plan in the desired form.

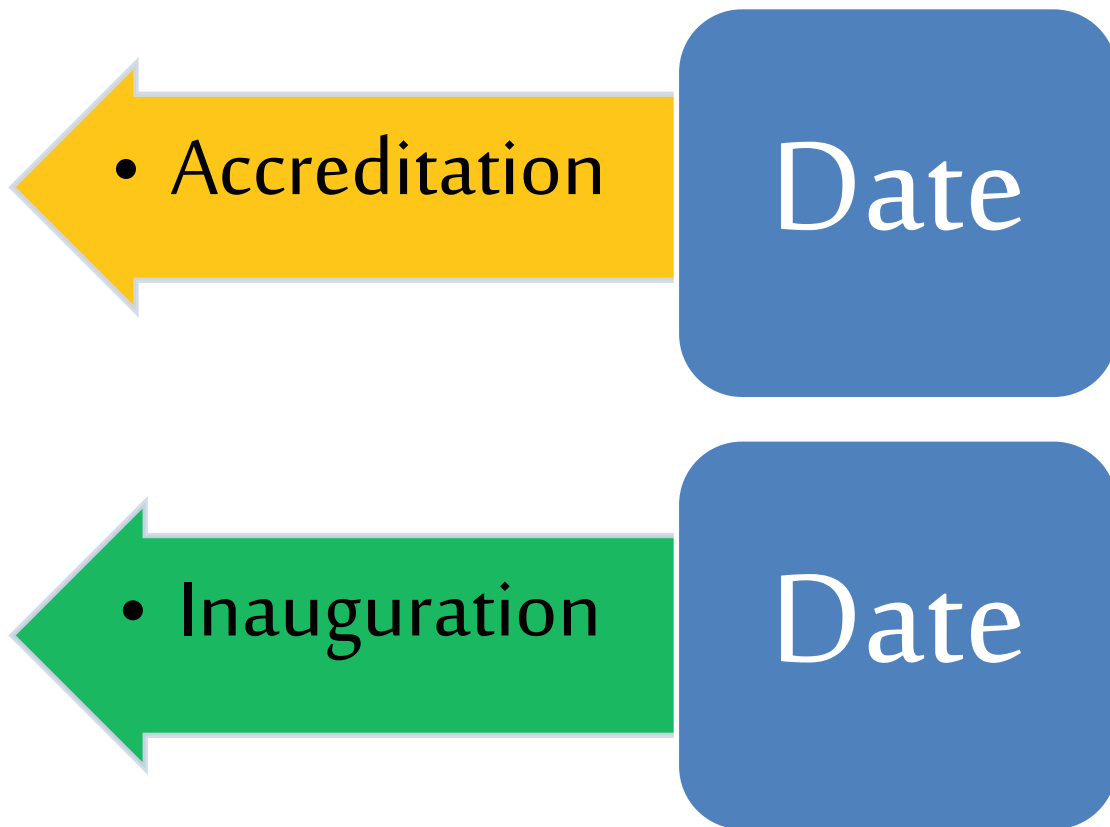

In conclusion, we ask Allah, the only source of blessing, for success and support in carrying out what we have planned.

Dean of the College

Dr. Abdulrahman Bin Obaid Al-Rafdi

# Chapter One

- *College background (Establishment, development, organizational structure)*
- *Evaluation of the current situation (analysis of the internal and external environments)*
- *Benchmarking (Best Practices and Entities)*
- *Analysis of strategic gap and options.*

## College Background

The College of Education in Al-Kharj was established in 1403 AH and grants only diploma. On November 29, 1414 AH, His Excellency the General President of Girls Education issued Decision No. 1/1597 to develop the intermediate college into a College of Education starting from the academic year 1415/1416 AH according to the four-year system, which grants student a bachelor's degree hereby. In the academic year 1429/1430 AH, the college joined King Saud University. In 1431 AH, the college joined the University of Al-Kharj, which name was changed to Salman bin Abdulaziz University. Then, by royal order, the name was changed to Prince Sattam University. The college includes the departments shown in the figure below, in addition to graduate studies (Masters) and teacher preparation diplomas.

Figure (1). College Background

**\* In addition to graduate studies and teacher preparation diplomas.**

## Organizational Structure of College

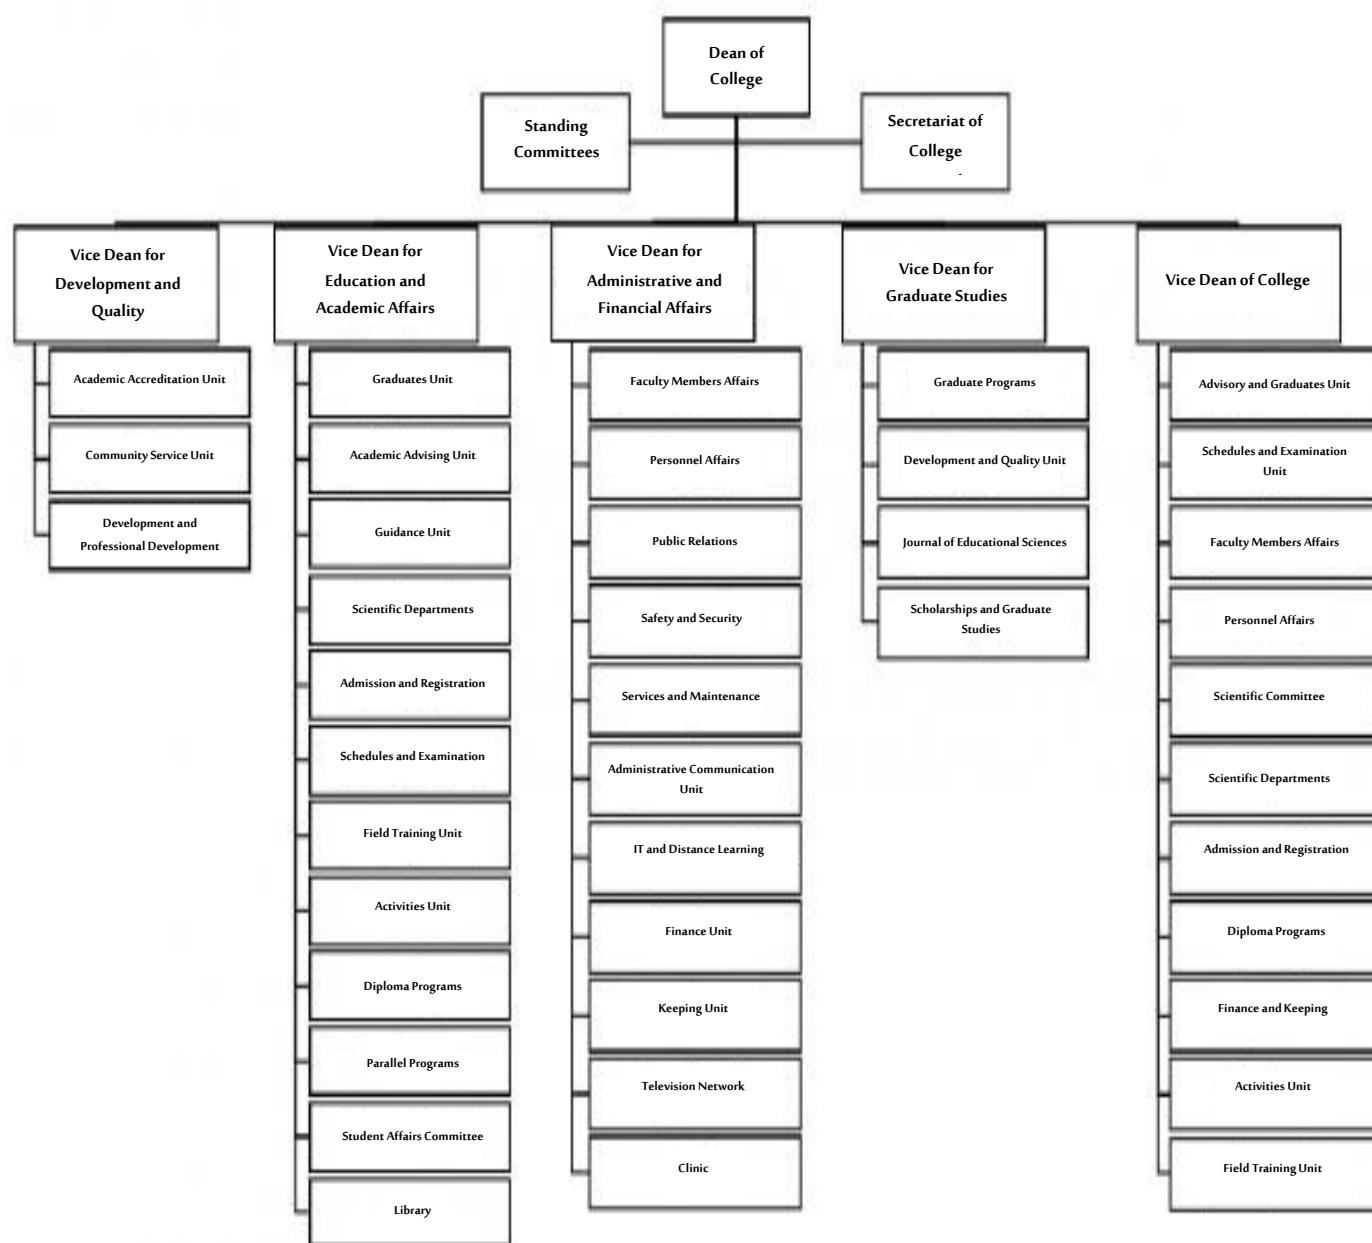

Figure (2). Organizational Structure of College

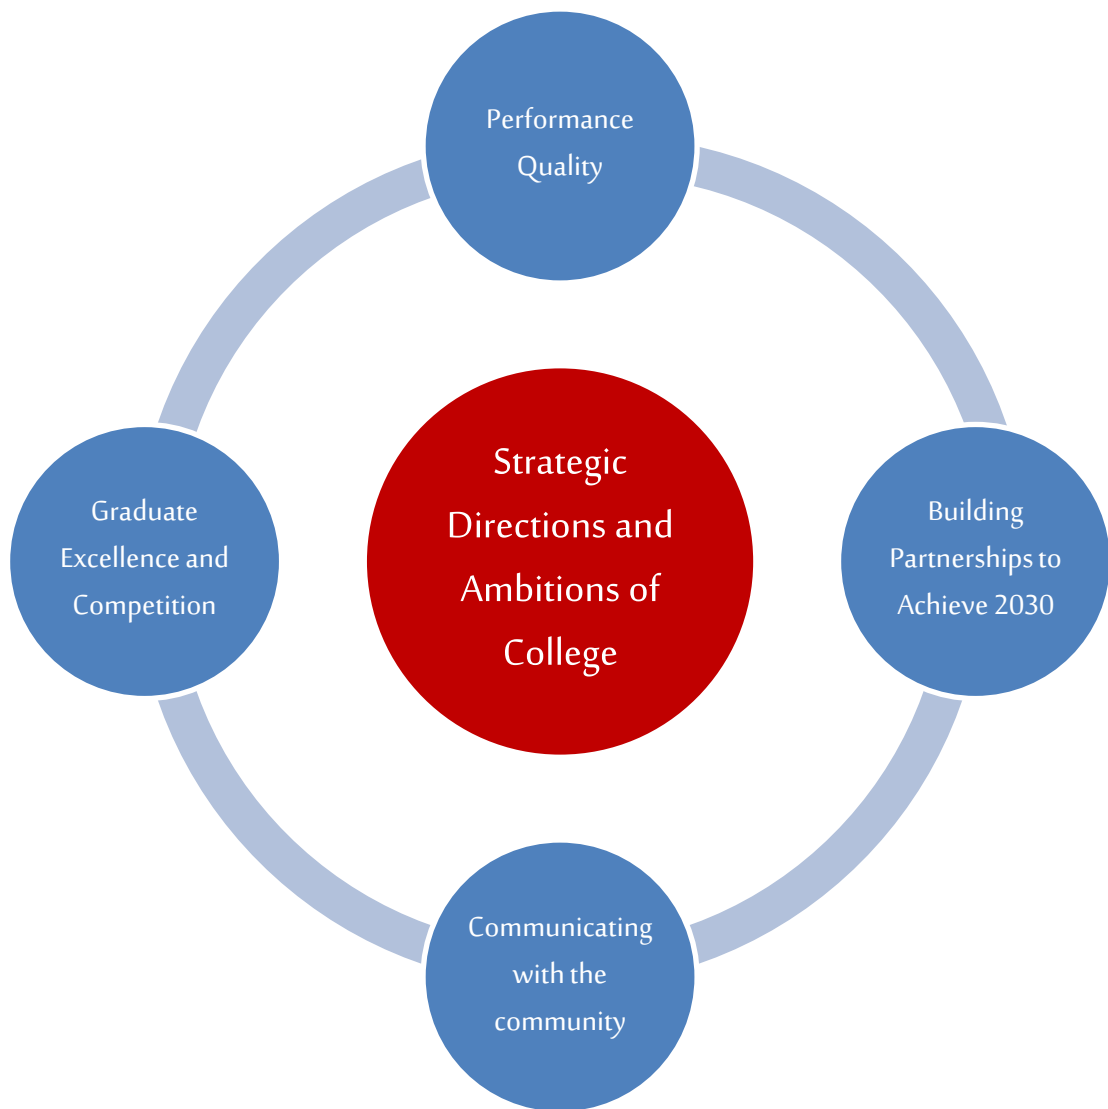

Figure (3). Strategic Directions and Ambitions

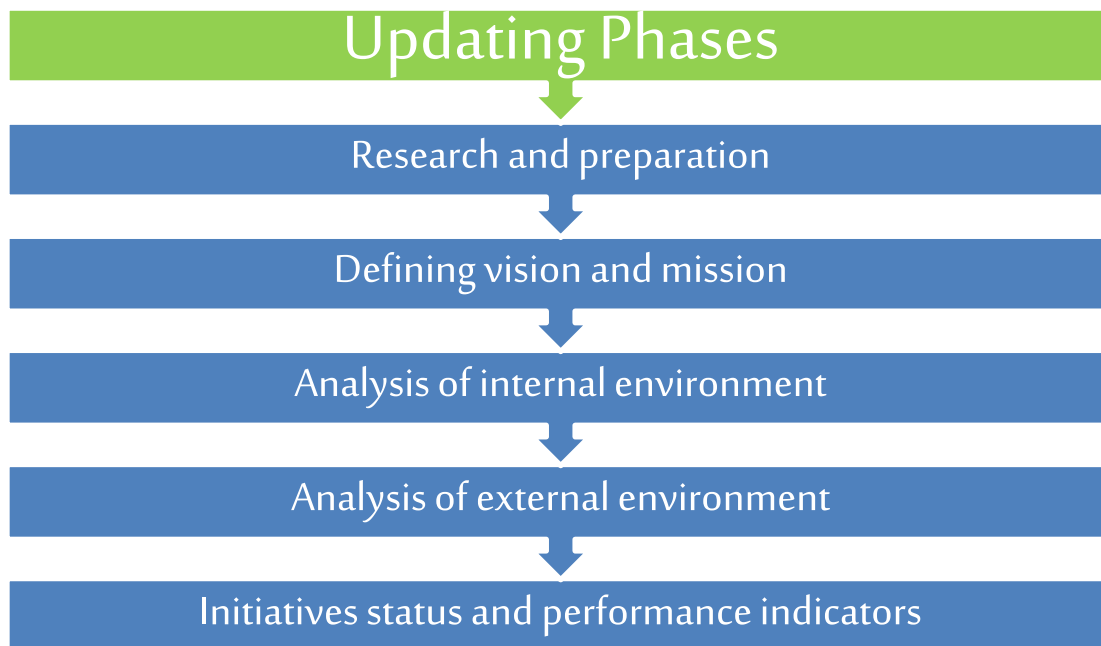

Figure (4). Phases of Updating the Strategic Plan

### Participants in the Update

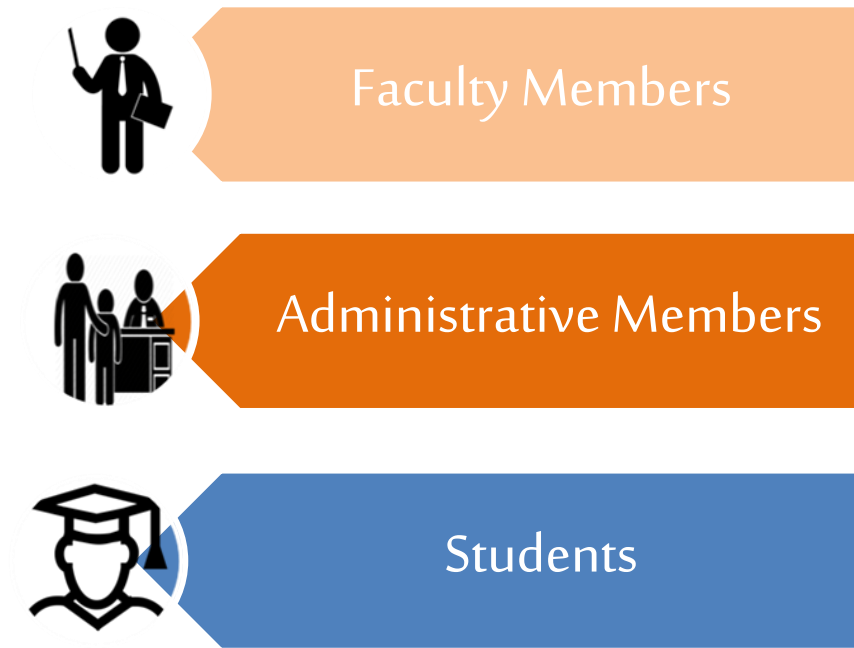

Figure (5). Participants in the Update

## References for Updating the Strategic Plan

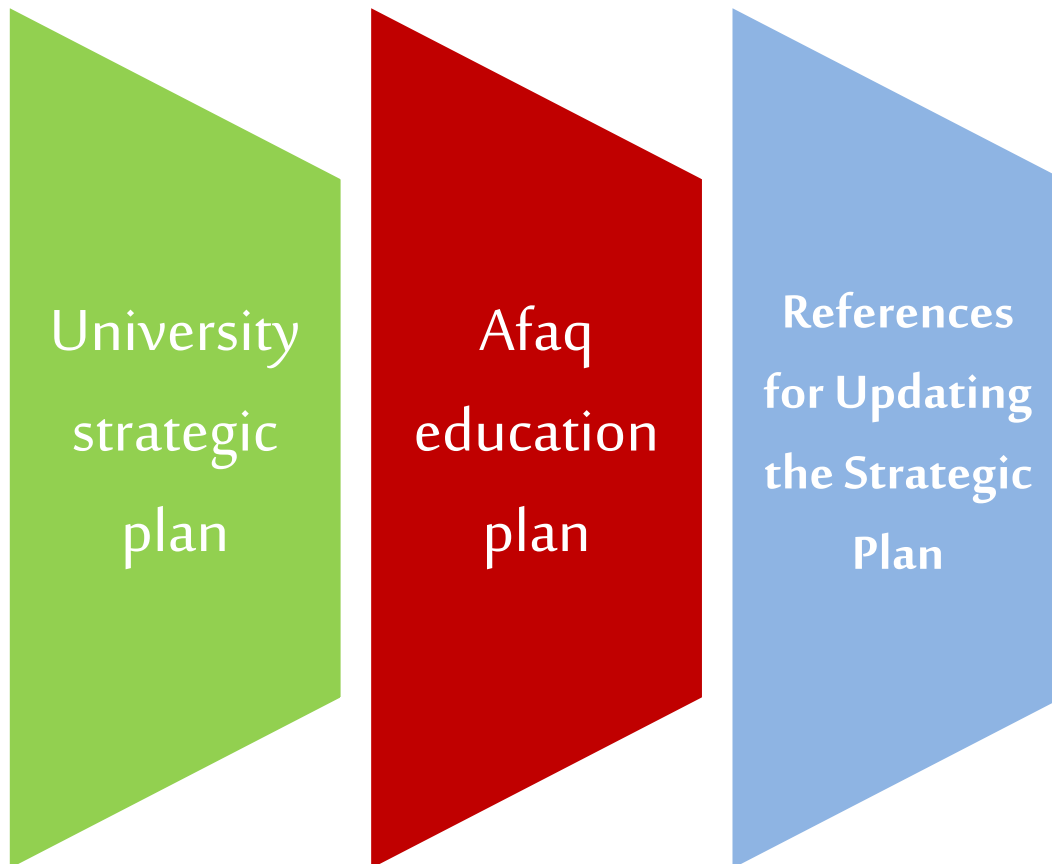

Figure (6). References for Updating the Strategic Plan

## Means of Updating

- *Research and preparation phase:*

1. Five brainstorming sessions were held, in which the strategic planning team and a number of faculty members were participated. In addition to a session with the support team from the Deanship of Development and Quality.
2. Three meetings were held with a number of students and faculty members.

- *Vision and mission defining phase*

1. Brainstorming sessions were held for the strategic planning team in college.
2. A questionnaire was designed about the availability of the basic elements in the vision of the college compared to university vision. Another questionnaire was designed about the availability of the basic elements in college mission compared to the university mission. Both questionnaires were filled by college leaders, faculty members, administrators and students.

Figure (7). Means of Updating

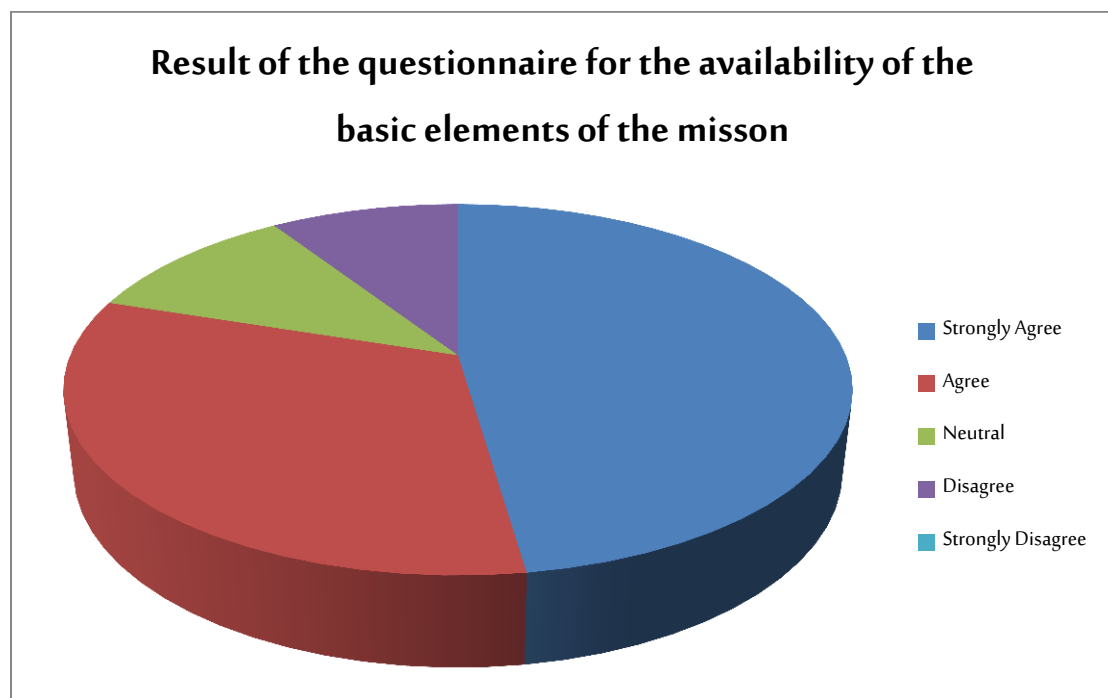

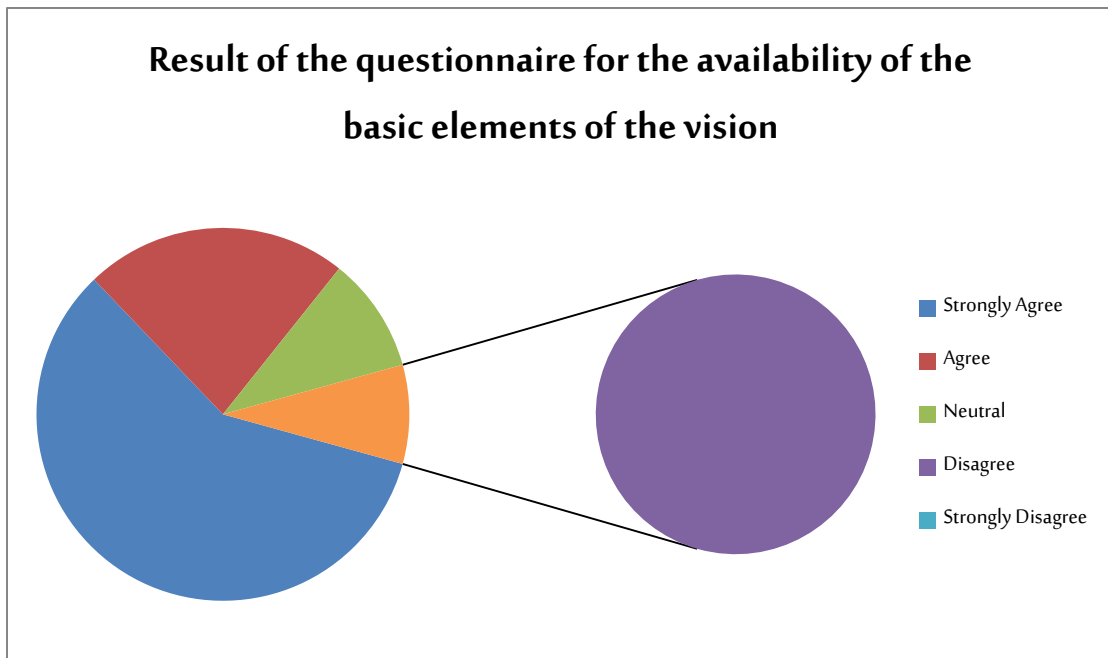

Figure (8). Results of Questionnaires for Vision and Mission

## SWOT

At this phase, the team was divided into two parts, and brainstorming sessions were held to identify strengths and weaknesses, as well as opportunities and threats. Students, faculty members and college administration participated in it. Sessions concluded the following:

### Analysis of Internal Environment

Table (1). Strengths and Weaknesses

Strengths	Weaknesses
Availability of specialized faculty members	The need to activate community partnerships
Diversity of teaching competencies and academic degrees.	The need to enhance the mental image of the college
College's interest in quality requirements	Student density in classrooms
Adopting e-services in administrative work.	The need for intensify training in administrative skills
Availability of graduate programs	Lack of interest in activating college's role in educational research
Availability of teacher preparation diplomas	The need to enhance quality practices in departments
The ability to be creative in student activities	Traditionality of teaching strategies, and the weakness of academic advising in guiding the graduate.
	Limited majors that attract students

## Analysis of External Environment

Table (2). Opportunities and Threats

Opportunities	Threats
Integrating higher education into general education.	Restructuring the colleges of education in the Kingdom
The growing population of the governorate	The disproportion between the needs of the labor market and the number of graduates
The growing societal need for college majors.	The presence of competition from colleges of prestigious universities.
Availability of a large budget to support education	weak academic level for those interested in the college majors.

## Main Issues

By analyzing the internal and external environments, we came up with the issues represented in the figure below:

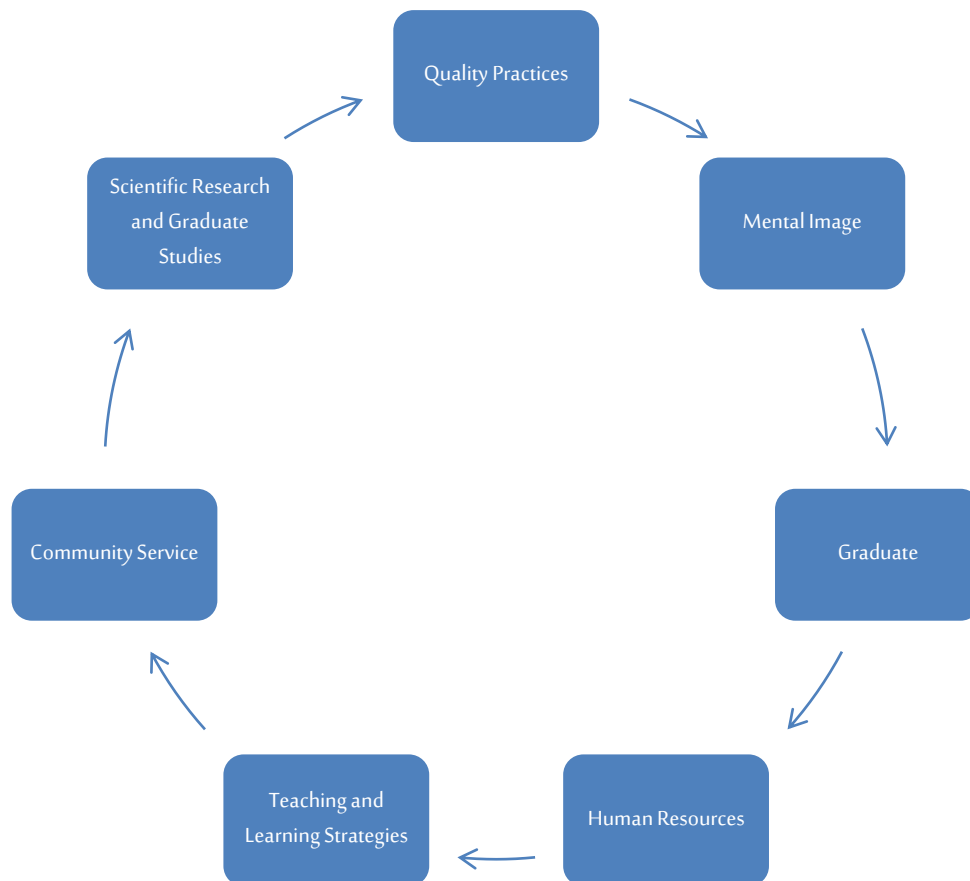

Figure (9). Main Issues of Environmental Analysis

## Benchmarking and Best Practices

Table (3). Benchmarking and Best Practices.

College name: Education, King Saud University	Founded in 1376 AH. Number of students: 1176. It has a variety of programs for undergraduate and graduate studies, and it has excellent reputation.
Main Issue	Practice Description
Mental image Graduate competition	Improving college's image with creative community partnerships, education strategies, and excellence in quality practices

College name: Education, King Abdulaziz University	Founded in 1408 AH. Its scientific departments are diverse, and it has great contributions to educational research
Main Issue	Practice Description
Educational research and graduate studies	Advanced graduate programs and innovative educational research.

College name: Education, Umm Al-Qura	Founded in 1372 AH. It was affiliated to
--------------------------------------	--

University	King Abdul Aziz University, and then it has been affiliated to Umm Al-Qura in 1401 AH. It has efforts in training, particularly in human resources.
Main Issue	Practice Description
Human resources	Developing human resources with effective programs

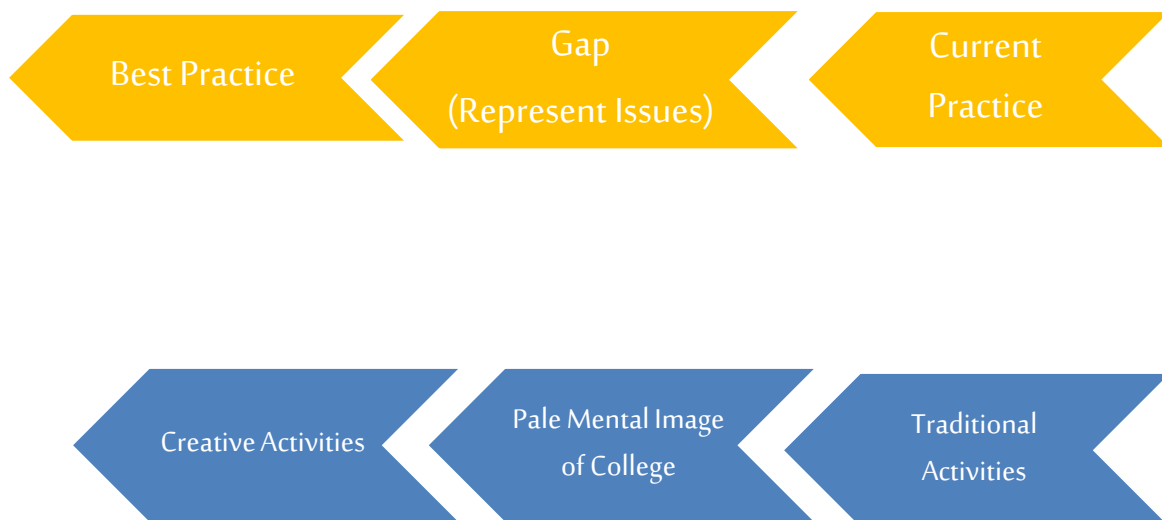

College name: Education, Emirates University	Founded in 1977 AD. It's distinguished in activities, quality practices, and academic accreditations.
Main Issue	Practice Description
Quality practices	Obtaining international accreditation

College name: Education, Cairo University	Founded in 1988 AD. It provides various educational programs, and has advanced development centers in community partnerships
Main Issue	Practice Description
Partnership and social responsibility	Effective community partnerships Supportive programs for social responsibility

College name: Education, University of	Founded in 1972 AD. It provides various

# Chapter Four

(Expected Risks – Change Management – Communication Plan)

## Expected Risks

Table (13). Expected Risks

Expected Risks	Degree of Impact			Occurrence Possibility			Mechanism of dealing with risk
	High	Medium	Low	High	Medium	Low	
Unavailability of the projected budget	√			√			Relying on graduate studies income
Suspension of admission to some departments	√			√			Switching to graduate programs

## Change Management Plan

Change management is the practical tool for achieving flexibility in the strategic plan. It determines the mechanisms for making any changes to the strategic plan. Any change in the strategic plan becomes known, then evaluated and approved, and then informing the concerned parties and document it. following figure shows change procedures and steps.

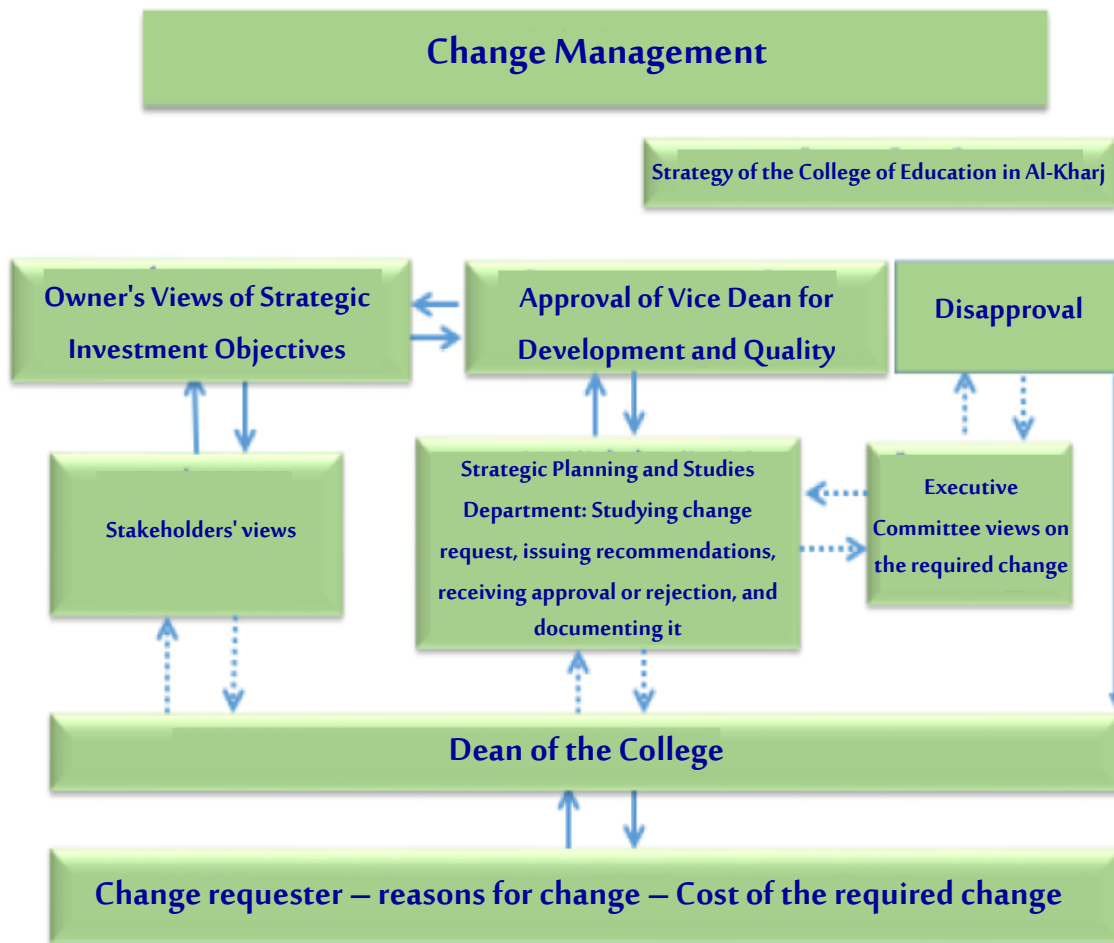

Figure (14). Change Management Process

## Communication Plan

The communication plan is the backbone in the dissemination of the strategic plan, and the effective tool of implementation of the coordination process to achieve the strategic objectives. It plays an important role in feedback. facilitating the communication process related to the implementation of the strategic plans of the College of Education, and enabling those in charge of implementation to communicate effectively, two models have been designed; One clarifies the organizational mechanism of the communication process, and the other clarifies the parties involved in implementation and the means of communication used. The communication plan aims to achieve the following:

1. Following up on the implementation process
2. Activating the means of communication to implement the plan internally.
3. Activating the means of communication to implement the plan with external parties.
4. Fast communication to detect issues and risks of implementing the plan.
5. Ensuring data dissemination and constant updating.
6. Communicating beneficiaries and related parties.

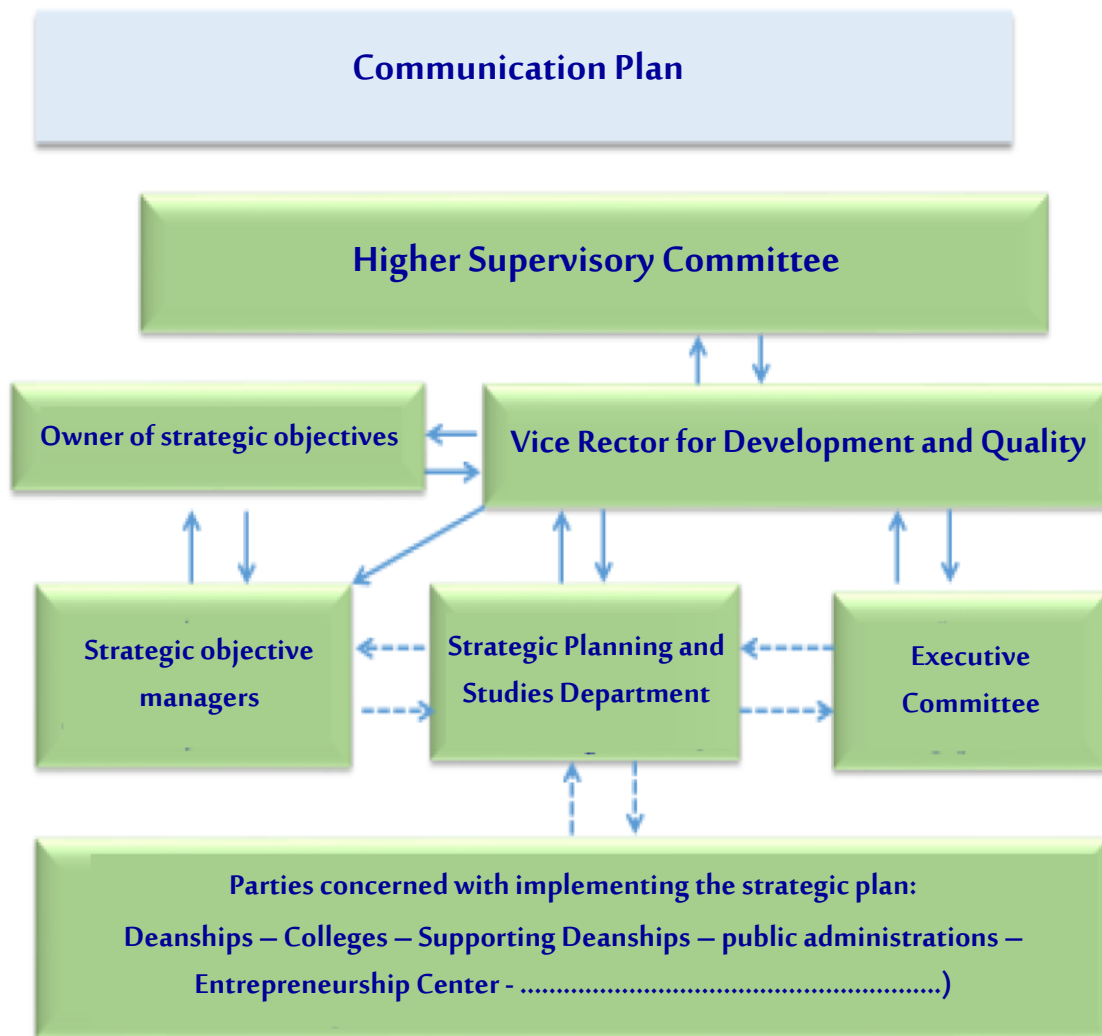

Figure (15). Regulatory Mechanism of the Communication Process
